

4. A current rabies vaccination administered by a licensed veterinarian is required for animals three months of age and older. However, if a mare was currently vaccinated against rabies when she foaled, the foal is not required to be vaccinated until six months of age, with a second vaccination administered two-four weeks later.

All vaccine label directions must be followed, and all rabies vaccinated equine animals must be accompanied by a rabies vaccination certificate or the vaccination information must be included on the CVI. The certificate must contain legible name and contact information of the veterinarian who administered the vaccine and the veterinarian's signature. A copy of the original rabies vaccination certificate is acceptable.

**(Rabies vaccination must be administered prior to July 7, 2017)**

**Section 9: Out of State Equine Animals:**

**Requirements:**

1. A Certificate of Veterinary Inspection (CVI) issued within the 30 days prior to the date of importation is required.
2. Vesicular Stomatitis (VS): (applies to states that experienced a Vesicular Stomatitis outbreak in the last 12 months). An accredited veterinarian shall determine whether the animals are free from VS, and animals shall be accompanied by a CVI with the following statement and signed by the accredited veterinarian: (All animals identified on this certificate of veterinary inspection have been examined and found to be free from VS. During the past 90 days, these animals were not located within 10 miles of a site where VS has been diagnosed.
3. All animals must be free of infectious and contagious diseases and a statement of this is required on the CVI (the statement is pre-printed on the CVI).
4. All equine animals must be test negative for EIA by an official test within the 12 months prior to the date of importation. Laboratory test results must accompany each animal to its final destination (a copy of the original lab report is acceptable). Foals less than six months of age accompanied by a dam which meets the above requirements are exempt from EIA testing requirements. If the foal is not accompanied by the dam, a copy of the dam's test results must accompany the foal to its final destination.
5. A current rabies vaccination administered by a licensed veterinarian is required for animals three months of age and older. However, if a mare was currently vaccinated against rabies when she foaled, the foal is not required to be vaccinated until six months of age, with a second vaccination administered two-four weeks later. All vaccine label directions must be followed, and all rabies vaccinated equine animals must be accompanied by a rabies vaccination certificate or the vaccination information must be included on the CVI. The certificate must contain legible name and contact information of the veterinarian who administered the vaccine and the veterinarian's signature. A copy of the original rabies vaccination certificate is acceptable.

**(Rabies vaccination must be administered prior to July 7, 2017)**

**Section 10: Pennsylvania Goats:**

**Requirements for PA Goats: (Tioga Fair)**

Individual official animal identification is required for all goats.

Official ID includes:

- An official USDA scrapie ear tag
  - A USDA ear tag with a US shield; or
  - A legible tattoo with herd and individual identification recognized in an approved USDA Scrapie database; or
- Goats having a breed registration tattoo and accompanied by a registration certificate are exempt from the scrapie ID requirement if the tattoo is legible and a registration certificate (copy acceptable) listing the current owner accompanies the animal at all times during transport from the premises of origin.

**Tioga Co. Fair requirements for Goats**

1. A Certificate of Veterinary Inspection (CVI) issued after May 1, 2017 is required.
2. All animals must be free of infectious and contagious diseases and a statement of this is required on the CVI (the statement is pre-printed on the CVI).

**Section 11: Out of State Goats:**

**Requirements:**

1. A Certificate of Veterinary Inspection (CVI) issued within the 30 days prior to the date of importation.
2. Vesicular Stomatitis (VS): (applies to states that experienced a Vesicular Stomatitis outbreak in the last 12 months). An accredited veterinarian shall determine whether the animals are free from VS, and animals shall be accompanied by a CVI with the following statement and signed by the accredited veterinarian: (All animals identified on this certificate of veterinary inspection have been examined and found to be free from VS. During the past 90 days, these animals were not located within 10 miles of a site where VS has been diagnosed.
3. All animals must be free of infectious and contagious diseases and a statement of this is required on the CVI (the statement is pre-printed on the CVI).
4. Individual official animal identification is required for all goats.

Official ID includes:

- An official USDA scrapie eartag. Contact the USDA to obtain scrapie eartags at 1-866-873-2824, weekdays from 9 AM to 5 PM. Your order may take several weeks for processing, so order tags early; or
- A USDA ear tag with a US shield; or
- An ISO-compliant 15-digit eartag starting with "841" (including RFID); or
- A USDA-approved custom scrapie eartag; or
- Goats having a breed registration tattoo and accompanied by a registration certificate are exempt from the scrapie ID requirement if the tattoo is legible and a registration certificate (copy acceptable) or a Certificate of Veterinary Inspection which lists the tattoo and registry accompanies the animal at all times during transport from the premises of birth.

5. Testing requirements: Tuberculosis:

No test is required for animals originating from "Accredited Free" states or zones.

All animals originating

from states or zones designated "Modified Accredited Advanced" must be test negative within the 60 days prior to the date of importation. The negative test results and date of test must be included on the CVI or the animal must be accompanied by a negative test report (a copy of the original report is acceptable).

All animals originating from states or zones designated "Modified Accredited" must originate from herds in which all animals 12 months of age and older have tested negative within the 12 months prior to the date of importation; and the individual animals (all ages) to be imported have also tested negative within the 60 days prior to the date of importation and at least 60 days after the negative whole herd test was completed. The negative test results and date of test must be included on the CVI or the animal must be accompanied by a negative test report ( a copy of the original test report is acceptable.)

**Section 12: Pennsylvania Poultry, Waterfowl, Upland Game Birds, Ratites, Pigeons/Doves and hatching eggs:**

Requirements:

1. All Pennsylvania poultry, waterfowl, upland game birds, pigeons/doves entering an exhibition must bear an official PDA-issued leg band. Ratites must be identified with a neck band or an electronic implant device (the exhibitor must supply a reader). Pigeons and doves must bear a unique individual identification leg band but do not have to be identified with an official PDA leg band.
2. **An owner-endorsed Poultry Health Certificate or a Certificate of Veterinary Inspection (health certificate) must accompany all Pennsylvania poultry, including chickens, turkeys, water fowl, upland game birds, ratites, pigeons/doves and hatching eggs. The certificate must include the following,**
  - Name and location of exhibition; and
  - Name, address, and telephone number of the owner;

And a statement that the entries and the flock of origin are free of evidence of contagious diseases; and Owner signature and date of that signature.

3. An Animal Owner or Caretaker's Verification of Veterinarian Consultation Relationship statement for the animals being exhibited must be included with a signature line for the owner or the caretaker on the fair registration form. I attest and affirm that a "veterinarian consultation relationship" - as that phrase is defined in the Animal Exhibition Sanitation Law found at 3 Pa.C.S.A. 2501 et.seq.and any amendments thereto—"exists with regard to any animal I will be exhibiting." The name and phone number of the consulting veterinarian must be included on the entry form. The statement is not needed if a Certificate of Inspection accompanies the birds.
- 4.. Avian Influenza Clean Testing and Verification (all samples must be collected by a Certified Poultry Technician or an Accredited Veterinarian). All poultry, including chickens, turkeys, waterfowl, upland game birds and ratites, (pigeons/doves excluded) and their hatching eggs for exhibition must originate from a flock in which a random representative sample of a minimum of 30 birds, 3 weeks of age or older, were tested for avina influenza within the 30 days prior to opening date of the exhibition. The birds or hatching eggs must be accompanied by the most recent test report (copy acceptable). Test results must be negative. If there are fewer than 30 birds in the flock, test all birds. For water fowl, cloacal swab samples must be collected for testing , and the swabs may be tested using PCR techniques. Swabs from geese and ducks may not be combined in a tube for testing. Birds shall not be comingled with untested or AI-positive birds after negative samples have been collected and before the show.
5. Pullorum-Typhoid Clean Testing and Verification (pigeons/ doves and waterfowl excluded for exhibition). (All samples must be collected by a Certified Poultry Technician or a Category II Accredited Veterinarian). All poultry, including chickens, turkeys,upland game birds, and ratites (waterfowl excluded) and their hatching eggs must originate from a flock in good standing in the NPIP Pullorum-Typhoid Clean Program (and there was no break in the chain of ownership by NPIP participants) or from a flock in good standing on the PA Pullorum Equivalent Program and the birds or hatching eggs must be accompanied by the most recent test report (copy acceptable). Test results must be negative. If the rapid whole-blood plate agglutination test was done, the most recent NPIP 9-2 form or state equivalent form must accompany the birds or hatching eggs (copy acettable).
